Desirable Location

St. Mary's Hospital is in the heart of Wisconsin's capital city, overlooking two of Madison's three great lakes. It is within five minutes of the Capitol building, the Frank Lloyd Wright-inspired Monona Terrace Community and Convention Center, the world-class Overture Center for the Arts, and the University of Wisconsin campus.

The surrounding neighborhood is a mature mix of pristine nature, older homes, young families, students and retirees, and an exciting new community-style development that increases the sense of neighborhood even more. It is a welcoming place to live and work.
